

Third ECAC Workshop on Sustainable Aviation Fuels (SAF-WKSHP/3)

***The Guidance on SAF in the
context of the ECAC capacity-
building programme for
environment***

ECAC Capacity-Building Programme for Environment
Videoconference, 09 March 2023, 09:30-12:30 CET

Capacity-building objectives for 2023

- ✓ **Objective I: To support ECAC Member States' own efforts to fulfil ICAO environmental policy and regulatory requirements**
 - *Provision of **capacity-building and training for sustainable aviation fuels (SAF)**, to support individual ECAC States where specific needs are identified, aimed at enabling all 44 ECAC Member States to have a national SAF roadmap in place to be included in the next revision of their State Action Plans (in 2024).*
 - **Objective II: To strengthen the competencies and knowledge of people dealing with environment matters in ECAC Member States**
 - *Provision of **monthly environmental familiarisation webinars**, other familiarisation briefings, and tailored support as required and as resources allow.*

Capacity-building objectives for 2023

- ✓ Objective III: **To promote and support information sharing and policy awareness among ECAC Member States**
 - ✓ *Workshops for the **dissemination of the ECAC Guidance on SAF** policy recommendations and sharing of SAF best practices among ECAC States.*
 - ✓ *Facilitation of **information sharing in other areas where further European harmonisation would be beneficial.***

ECAC Survey on capacity-building for Sustainable Aviation Fuels (SAF) in Europe

- ✓ Letter sent to the 44 ECAC DG's on 1st March 2023
 - **SAF training survey to ECAC Member States, to be replied before 20 March 2023**
- ✓ Identification of tailored **training needs to support individual ECAC States** to have a national SAF roadmap in place for the next update of State Action Plans (June 2024).
- ✓ **Identification experts** in ECAC States who could participate in the delivery of these activities.

Next steps on capacity-building for SAF in Europe

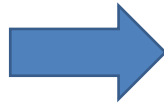

- ✓ Tailored SAF training to individual ECAC States
 - **Needs to be requested to ECAC Secretariat** (via the survey or directly)
 - ✓ **In cooperation with other Member States** sharing their expertise.
 - ✓ **A calendar of training activities** to be developed during 2023, once needs are identified.

Next steps on capacity-building for SAF in Europe

- ✓ Possibility of ECAC joining ACT-SAF as **supporting organisation** is under evaluations as per requests of DG's.
- ✓ This should not prevent any ECAC Member States joining ICAO ACT-SAF either as supporting or requesting State

February 2023

ECAC
GUIDANCE on
Sustainable
Aviation Fuels (SAF)

2023

European Civil Aviation Conference

Endorsed by ECAC Directors General of Civil Aviation on
24 February 2023

ECAC Guidance on SAF

- ✓ **Be the basis to provide tailored training to ECAC States**
- ✓ **Be further promoted to support capacity-building beyond Europe via cooperation with sister organisations (AFCAC, ACAO, LACAC)**

**Thank you for your
attention!**
