

Considerations for creating a SAF strategy

ECAC 9 March 2023

Ingrid Cherfils Deputy Director General Swedish Transport Agency

- Background on ITF Decarbonising Aviation Common Interest Group
- A Policy Vision for Promoting the Scale-Up of Sustainable Aviation Fuels – main outcomes
- Concluding remarks

ITF International transport Forum Decarbonising Aviation Common Interest Group

Main outcomes of a shared policy vision

- Facilitate early SAF scale-up and promote cost reductions
- Capture opportunities for industrial development and energy supply resilience
- Embrace all sustainable production pathways and feedstock types that deliver credible emission reductions
- Promote holistic transport decarbonisation strategies to maximise emission savings
- Mobilise partnerships to accelerate SAF production and development

Concluding remarks

Role of
consumers
and corporate
demand

SAF available
everywhere?

What about
other
